

PROACT CONFERENCE

29th September

The final conference of the PROACT project was held in Bordeaux, France. The main aim of this conference was to present/introduce the outcomes of the project to the wide public and show the achieved progress of the organizations involved in the project. The Representatives of the NGOs and public bodies, international guests and all other whom it may have interested participated in the event.

The day started with the introduction of the work each project partner has done within their region.

They described the way they carried out the project activities, the types of organizations involved in the testing and also the results of the pilot training. Later on, the evaluation of the project as a whole was presented by Michael Schwaiger, representative of Init Developments.

After the lunch break, all participants of the conference were divided into groups and had a chance to attend the workshops – either in French or English. This way they could experience in person how the PROACT training itself looked like.

The conference was finished with the presentation of the dissemination report showing how the project was presented to the public and the various stakeholders.

The Czech Republic was represented by trainer Mr. Kučera and one of the participants of training course– Mr. Dastlík who represented the educational organization based in Prague, Elio o.s.
